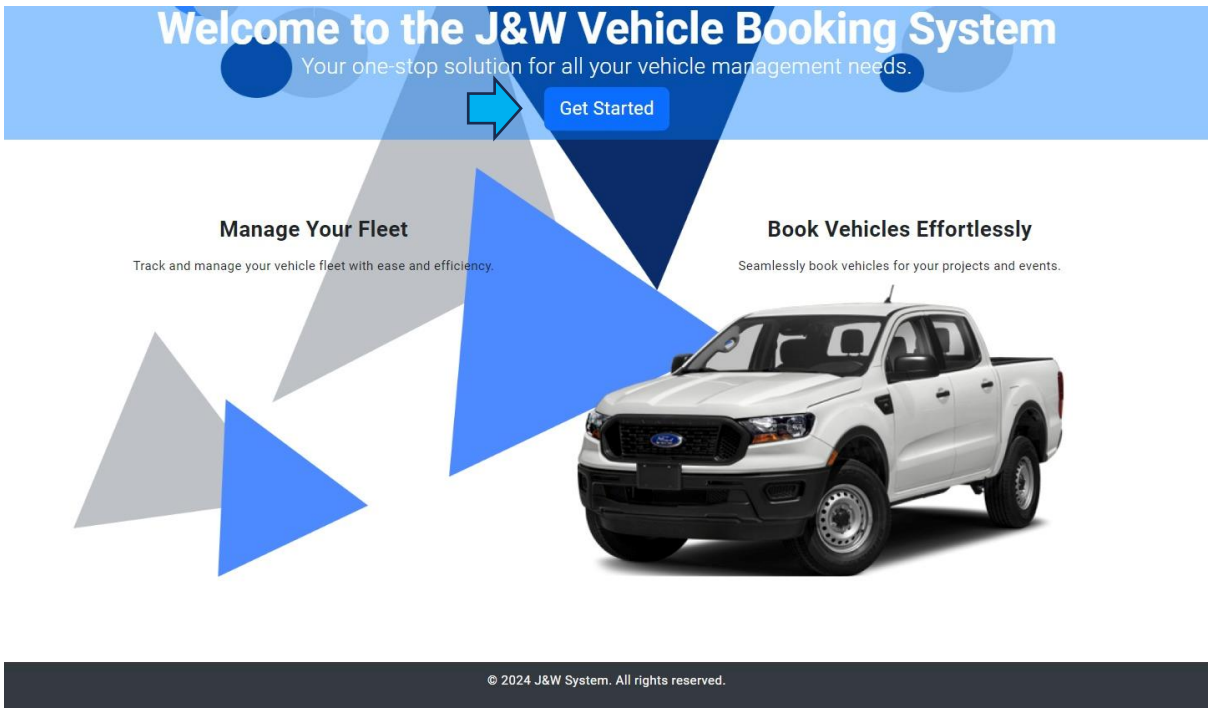
Help Document

1. Home

- **Overview**: The Home tab provides a summary of the system's functionality. You can find quick links to your most recent bookings, notifications, and system updates.
- **Getting Started**: If you are new to the system, start by clicking the 'Get Started' button to familiarize yourself with the main features available on the system.
- **Navigation Tips**: Use the Home tab to quickly access other sections of the system, including your profile, dashboard, FAQ, and shortcuts to common tasks.



2. Make a Booking

- **Overview**: This tab allows you to create a new booking for a vehicle. You'll need to provide information such as the vehicle, event or project, project number (This only applies if you selected the project radio button instead of the event radio button), start date and end date.

- **Step-by-Step Guide**:
    1. Select the vehicle you wish to book from the dropdown which displays a list of available vehicles.
    2. Choose between an event and a project.
        - If you pick a project, choose a project number from the dropdown of available projects

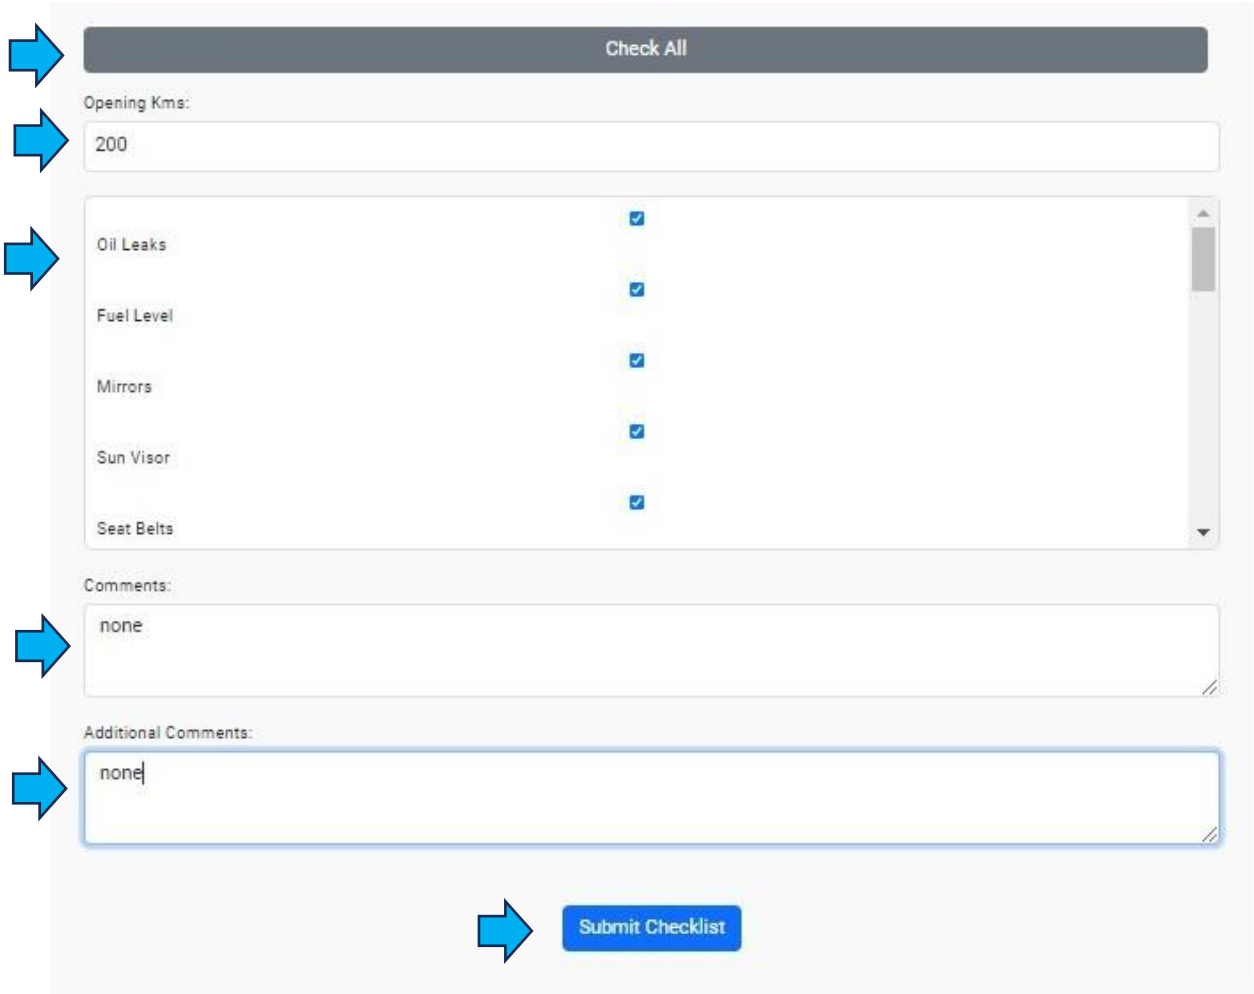
3. Choose a start date.
4. Choose an end date.
5. Confirm your booking by saving it.
6. Await an email which will confirm the booking you have made.

- **Common Issues**: If you receive an error while booking, ensure all required fields are filled out and that the vehicle is available during your selected time. Additionally, ensure that the Start date you have entered is **not** a date that has already passed.

3. Pre-Checklist

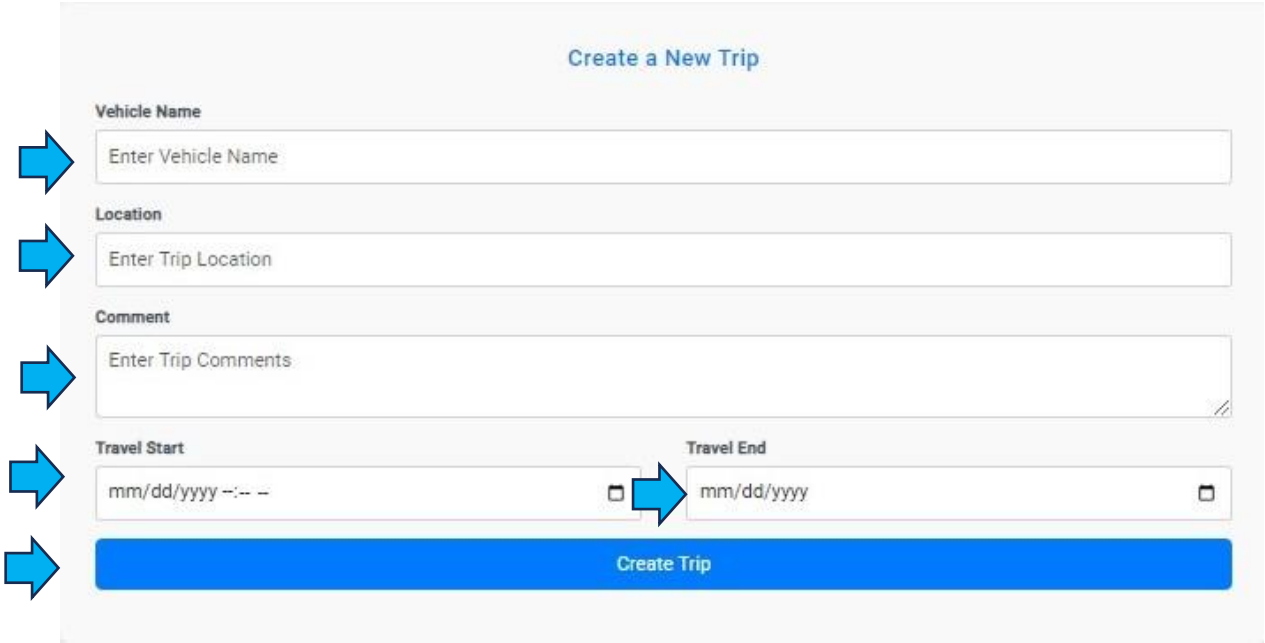
- **Overview**: Before starting commencing with your trip, navigate to the Booking History tab or wait for the system to route you to the Booking History tab, there, you must click on the "Complete a Pre-Checklist" button, and complete this list to ensure the vehicle is in good condition before you commence with your trip.
- **Step-by-Step Guide**:
  1. Inspect the vehicle for any damages or issues.
  2. Check and mark each item on the checklist.
  3. Add a comment or additional comments if you have any.
  4. Submit the checklist to proceed with your trip.

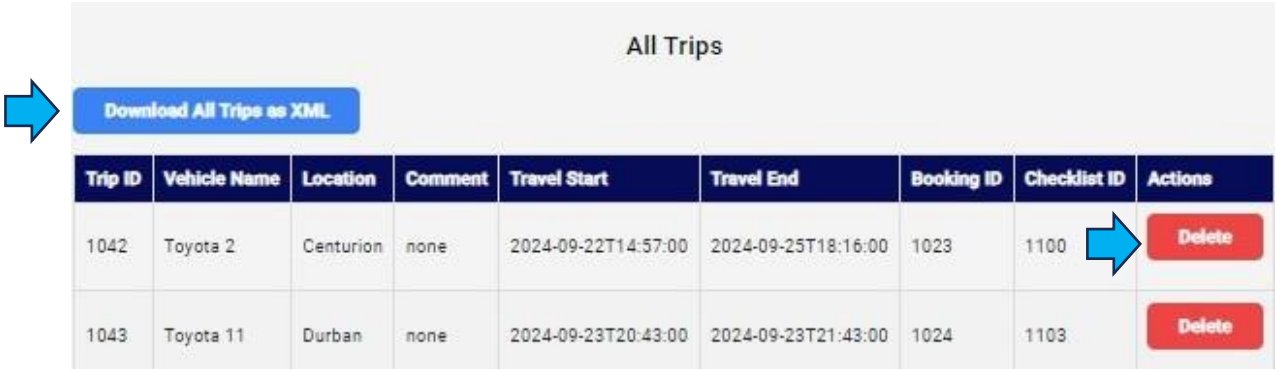
- **Common Issues**: Ensure all checklist items are addressed before submitting. If an item is not applicable do not mark it.



4. Trips

- **Overview**: This tab displays all the trips you have booked or participated in.
- **Viewing Trip Details**: Click on any trip in the list to view detailed information about the trip, including the vehicle used, location, comments made, travel start, travel end and associated checklists.
- On the admin side you can see all the trips that were made by the drivers.
- **Common Issues**: If you cannot see your trips, ensure you are logged in with the correct account/username, make sure that you have successfully added that trip, or check your booking dates.





5. Post-Checklist

- **Overview**: After completing your trip, you must fill out a PostChecklist to report the vehicle's condition.
- **Step-by-Step Guide**:
    1. Inspect the vehicle again for any issues that may have arisen during the trip.
    2. Complete each item on the checklist.
    3. Upload any media should there be any you would like to upload. This should be in the form of pictures only.
    4. Submit the checklist to finalize and end your trip.
- **Common Issues**: Ensure all items are thoroughly checked before submitting. If you encounter issues, such as damages to the vehicle, report them immediately on the post checklist.

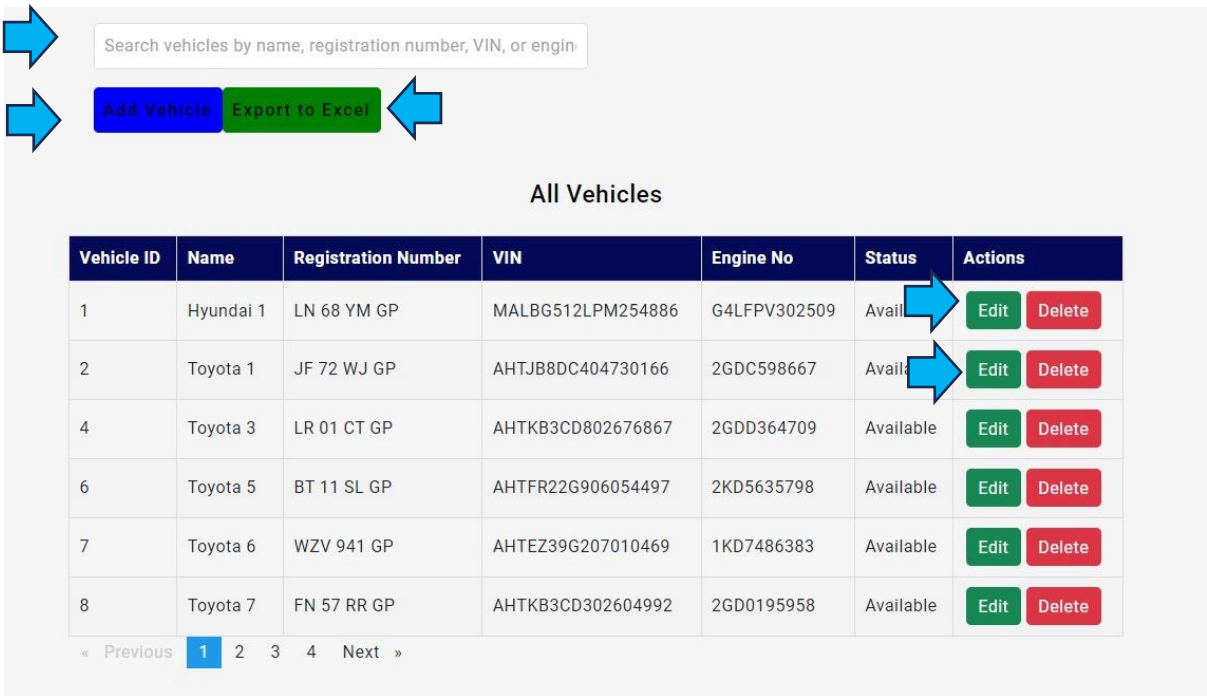
6. Vehicles

- **Overview**: The Vehicles tab allows you the user on the admin side, to add, edit, delete vehicles, vehicle models and makes.
- **Step-by-step guide**:
    1. Click the 'Add Vehicle' button
    2. Enter the required details
    3. Click the 'Edit' button if you wish to edit the vehicle
    4. Enter the required details
    5. Click the 'Delete' button if you wish to remove a vehicle from the system.
- **Common Issues**: If you receive an error while adding a vehicle, ensure all required fields are filled out correctly.



7. Reports

- **Overview**: The Reports tab allows you to generate various reports related to your bookings, trips, fuel expenditure and vehicle models.
- **Generating Reports**: Select the type of report you wish to generate, and click on 'Generate "Name of report" Report'. You can view or export the report in PDF format.
- **Common Issues**: If a report does not generate, check the history of the report you would like to generate.
